## PART A:

Observations in Writing	Sketch of the Night Sky

## PART B:

The last part of the assignment is to create an artistic representation of the sky that you observed on your assigned day. This needs to be completed and **handed in 2 days after you complete the observation** part of the assignment. Your imagination is the limit you can use any art materials that you want. **The only requirement is that your artwork fit onto the cardstock provided to you for displaying it as part of our lunar calendar.**
